## SUBMERSIBLE PUMPS

An ISO 9001:2008  
Certified Company

JAS-ANZ

M4570910IN

IS 8034

CML 6500003998

# MACMO PUMPS INDUSTRIES

COIMBATORE - 641 006.

**6" SUBMERSIBLE PUMPS**

**6" SUBMERSIBLE PUMPS (SUITABLE FOR 150 mm BOREWELL DIA)**

- ❖ 6" Submersible pumpsets are rewindable and water lubricated motor.
- ❖ Mild Steel Stainless body.
- ❖ Suitable for Three Phase Supply.
- ❖ Available from 3.0 H.P. to 20 H.P.
- ❖ Suitable for lifting water to maximum height of 210 Meters.
- ❖ Discharge upto 60,000 LPH
- ❖ Sturdy & Durable.
- ❖ Pumpsets are easy to maintain with interchangeable parts.

**4" SUBMERSIBLE PUMPS**

**4" SUBMERSIBLE PUMPS (SUITABLE FOR 100 mm BOREWELL DIA)**

- ❖ 4" Submersible pumpsets are rewindable and water lubricated motor.
- ❖ Fully Stainless body.
- ❖ Suitable for Single & Three Phase Supply.
- ❖ Available from 0.5H.P. to 2.0H.P in Single Phase & 1.0H.P to 5.0H.P. in Three Phase.
- ❖ Suitable for lifting water to maximum height of 360 Meters.
- ❖ Discharge from 2,500 LPH to 21,000 LPH
- ❖ Light Weight and easy to install.
- ❖ Corrosion and abrasion proof.

**OPENWELL SUB**

**3 PHASE OPENWELL SUBMERSIBLE PUMPS**

- ❖ No Shifting of Motors to Various beds during monsoon and summer is required.
- ❖ High Grade cast iron construction
- ❖ Dynamically balanced rotor and impellers for long life.
- ❖ Since bearings are water - lubricated no maintenance is required.
- ❖ can be installed at the bottom of the well.
- ❖ 3 Phase 415V Supply.

**OPENWELL SUB**

**SINGLE PHASE OPENWELL SUBMERSIBLE PUMPS**

- ❖ Water Lubricated thrust bearings to withstand high axial load.
- ❖ Epoxy Ceramic Coated in cast iron parts.
- ❖ High grade oil seals prevent the entry of foreign particles and sand into the motor.
- ❖ The Motor is of Squirrel cage type and the windings are intensively cooled by water.

**CRE PUMPSETS** are latest in design and marvelous performance. The Components are made of high quality extruded cast iron body, Stainless Steel Shaft for rust free operation, Brass forged impellers, graded cast iron pump casing and motor bearing housing, high grade cast iron effectively designed smooth valves provided good hydraulic efficiency, compact and sturdy design ensuring easy handing, quick installation and long life. The Pumps have been put into strict testing to maintain its quality parameters.

Manufactured by
