TM ELECTRICAL POWER CONTROLS

SMART CONTROL • SAFE OPERATION • RELIABLE PERFORMANCE

Advanced **Power Control Solutions** for a Smarter Tomorrow

High quality electrical control panels and automation solutions designed for safety, efficiency and long-term performance.

- Residential Services
- Commercial Sevices
- Indsutrial Services
- Maintenance & Support

OUR PRODUCTS

Industrial Panel Solutions

Panel boards designed for industrial power distribution, control and protection requirements.

LTCT Meter Panel

Metering panel solution for LT current transformer metering applications.

Feeder Pillar Panel

Power distribution and feeder control for outgoing electrical circuits.

LT EB Meter Panel

Panel arrangement for LT electricity board metering applications.

Automatic Power Factor Control (APFC)

Automatic power factor correction to support efficient electrical operation.

Motor Control Centre (MCC) Panel

Centralised control and protection for motors and related equipment.

Automatic EB / DG Changeover Panel

Power distribution and feeder control for outgoing electrical circuits.

SSB Panel

Sub switchboard panel for Organised power distribution.

Industrial Plug & Socket Panel

Industrial-grade plug and socket panel arrangements for power access.

OUR SOLUTIONS

Residential Panels & Services

RESIDENTIAL PANEL SOLUTION

SS EB Meter Panel

Stainless-steel EB meter panel solution for residential installations.

EB Meter Panel

Meter panel solution for electricity consumption measurement.

ABOUT OUR COMPANY

We focus on understanding customer requirements, maintaining a neat manufacturing approach and delivering panel board solutions with attention to workmanship and application needs.

Powering Every Industry With Smart Panel Solutions

We focus on understanding customer requirements, maintaining a neat manufacturing approach and delivering panel board solutions with attention to workmanship and application needs

Why choose Us ?

Customised Engineering

Tailor-made electrical panel systems built to your engineering drawings.

Advanced Safety Integration

Advanced integration of high-grade safety devices like MCBs, RCCBs, and VAF meters.

Precision Manufacturing

Prompt structural fabrication, meticulous bus bar alignment, and full quality compliance.

Wide Industry Reach

Serving textile hubs, manufacturing plants and residential projects across South India.

Building a

Safer & Smarter Tomorrow

Reliable electrical control solutions
for a better, safer and more efficient future.
